PROFESSIONAL SUMMARY

Motivated Bachelor of Information Technology student with developing expertise in cybersecurity, networking, software development, and web design. Currently expanding practical knowledge through penetration testing study and full-stack project development. Comfortable with network configuration concepts and committed to building secure, functional applications. Portfolio and project links available upon request. Looking for an opportunity to apply a broad technical foundation in a hands-on IT environment.

EDUCATION

Bachelor of Information Technology

University of Fiji | Nadi, Fiji | Expected Graduation: April 2027

- Major: Information Technology — Specialization in Software Development
- Relevant coursework: Data Structures & Algorithms, Database Systems, Computer Networks, Web Technologies, Operating Systems, Cybersecurity Fundamentals, Software Engineering, Network Configuration, Penetration Testing (In Progress)

TECHNICAL SKILLS

- Software Development: HTML5, CSS3, JavaScript, Full-Stack Architecture
- Desktop Development: C#, .NET Framework, Windows Form
- Web Design: Responsive Design, Pico.css, UI/UX Fundamentals
- Databases: PostgreSQL, SQL, Supabase
- Cybersecurity: Security Fundamentals, Authentication, OWASP Awareness
- Networking: Network Configuration Basics, TCP/IP, DNS
- Tools: Git, GitHub, VS Code, Visual Studio Community 2022, Browser Dev Tools
- Currently Developing: Penetration Testing

ACADEMIC & PERSONAL PROJECTS

Personal Portfolio Website | *HTML / CSS / JavaScript*

Personal Project — 2026 | [https://github.com/Tanweerali757/Portfolio]

- Designed and developed a responsive portfolio website showcasing skills, projects, and professional background
- Implemented mobile-first responsive design ensuring optimal viewing across desktop, tablet, and mobile devices
- Integrated Font Awesome icon library and Google Fonts for polished visual presentation
- Added dynamic JavaScript functionality including auto-updating copyright year and interactive navigation

Smart Budget Manager | *C# / .NET Framework / SQL Server*

Academic Project — 2024 | [https://github.com/Tanweerali757/SmartBudgetManager]

• Developed a Windows desktop application enabling users to track personal income, expenses, and budget categories

• Built using C# and .NET Framework with Windows Forms for an intuitive graphical user interface

• Implemented SQL Server database integration for local data storage and CRUD operations

• Designed features for expense categorization, financial summaries, and data persistence

Study Room Monitor | *HTML / CSS / JavaScript / Supabase / PostgreSQL*

Personal Project — In Progress (2026) | [GitHub URL] |

• Building a full-stack web application for tracking university study room availability and maintenance status

• Implementing secure user authentication with JWT tokens and Row Level Security policies

• Designing PostgreSQL database schema and integrating Supabase as backend-as-a-service

• Developing responsive UI using vanilla JavaScript and Pico.css framework

• Planning deployment on GitHub Pages with complete CRUD functionality

CERTIFICATIONS & ONLINE LEARNING

- Computer Hardware Basics - Cisco NetAcad(2025)

EXTRACURRICULAR ACTIVITIES

- Volunteer assistant on open day for school of science and technology

REFEREES

Available on request.
